

### Old Point Releases First Quarter 2016 Results

- **Net interest margin improves to 3.62%**
- **Net interest income after provision increases \$160 thousand**
- **Quarterly net income exceeded \$1.0 million**

**April 26, 2016 Hampton, VA** Old Point Financial Corporation (NASDAQ "OPOF") reported net income of \$1.0 million, or \$0.21 per diluted share, for the three months ended March 31, 2016, compared to net income of \$1.2 million, or \$0.24 per diluted share, for the three months ended March 31, 2015. Higher net interest income after the provision and higher noninterest income were offset by higher noninterest expense.

Assets as of March 31, 2016 were \$856.8 million, a decrease of \$39.9 million from December 31, 2015, due primarily to a strategic decision to prepay a \$25 million advance from the Federal Home Loan Bank (FHLB), which would have matured in June of 2016. Although this required Old Point to pay a fee of \$391 thousand, the prepayment will save \$456 thousand in interest expense during 2016, for a net increase to pre-tax income of \$65 thousand. The full benefit of this prepayment will be realized in the second quarter of 2016 but has already contributed positively to Old Point's net interest margin, which increased from 3.58% in the first quarter of 2015 to 3.62% in the first quarter of 2016.

Loan growth continued in 2016, with net loans increasing \$4.9 million in the first quarter. With the payoff of the FHLB advance and continued loan growth, Old Point is working to reduce excess liquidity to improve profitability in future quarters. The resulting decrease in assets led to a reduction in interest income of \$139 thousand, but also allowed Old Point to reduce its funding liabilities and thus reduce interest expense by \$174 thousand, leading to a \$35 thousand increase in net interest income. Combined with the \$125 thousand reduction in the provision, net interest income after the provision increased \$160 thousand when comparing the first quarter of 2016 to the first quarter of 2015.

Noninterest expense was \$804 thousand higher when comparing the first quarters of 2016 and 2015 and was significantly impacted by the \$391 thousand fee assessed on the prepayment of the FHLB advance. To offset this fee, and to offset certain losses incurred to liquidate properties held in other real estate owned, Old Point sold a portion of its securities portfolio for a gain of \$509 thousand, which is included in noninterest income on the income statement. The securities portfolio was restructured in

the first quarter of 2016 to better position Old Point for future rate changes, and the sale of these securities was analyzed as part of that restructure to ensure a minimal impact on future earnings. Noninterest expense was also impacted by increases in legal and audit expenses and other outside service fees, and a modest increase in salaries and employee benefits.

**Other items of note:**

**Non-Performing Assets (NPAs)** increased from \$10.7 million as of December 31, 2015 to \$11.8 million as of March 31, 2016. NPAs do not include restructured loans that are performing in accordance with their modified terms. Loans past due 90 days or more but still accruing interest, a component of NPAs, totaled \$3.1 million as of March 31, 2016, of which \$2.9 million were student loans that are 97-98% guaranteed by the U.S. Government. Old Point expects to experience minimal losses on these government-guaranteed loans. At December 31, 2015, government-guaranteed student loans 90 days or more past due but still accruing interest totaled \$3.1 million.

**Allowance for Loan and Lease Losses (ALLL)** was 1.36% of total loans as of both March 31, 2016 and December 31, 2015.

**Net loans charged off as a percent of total loans (annualized)** were 0.06% for the three months ended March 31, 2016, compared to a net recovery in 2015. This increase in net charge-offs was partially due to unusually high loan recoveries received during 2015.

**Net interest margin (NIM)** was 3.62% for the three months ended March 31, 2016, compared to 3.58% for the three months ended March 31, 2015.

**Safe Harbor Statement Regarding Forward-Looking Statements.** Statements in this press release which express “belief,” “intention,” “expectation,” and similar expressions, identify forward-looking statements. These forward-looking statements are based on the beliefs of Old Point's management, as well as estimates and assumptions made by, and information currently available to, management. These statements are inherently uncertain, and there can be no assurance that the underlying estimates or assumptions will prove to be accurate. Actual results could differ materially from historical results or those anticipated by such statements. Factors that could have a material adverse effect on the operations and future prospects of Old Point include, but are not limited to, changes in: interest rates; general economic and business conditions, including unemployment levels; demand for loan products; the legislative/regulatory climate; monetary and fiscal policies of the U.S. Government, including policies of the U.S. Treasury and the Federal Reserve Board; the quality or composition of the loan or investment portfolios; the level of net charge-offs on loans; deposit flows; competition; demand for financial services in Old Point’s market area; technology; reliance on third parties for key services; the real estate market; Old Point’s expansion initiatives; accounting principles, policies and guidelines; and other factors detailed in Old Point's publicly filed documents, including its Annual Report on Form 10-K for the year ended December 31, 2015. These risks and uncertainties should be considered in evaluating the forward-looking statements contained herein, and readers are cautioned not to place undue reliance on such statements, which speak only as of date of the release.
