

Old Point Releases Second Quarter 2017 Results

Hampton, Va., July 28, 2017 (PRNewswire) Old Point Financial Corporation (the Company or Old Point) (NASDAQ "OPOF") reported net income of \$1.2 million (\$0.23 per diluted share) for the three months ended June 30, 2017, compared to \$552 thousand (\$0.11 per diluted share) for the three months ended June 30, 2016. Net income for the six months ended June 30, 2017 was \$2.1 million (\$0.42 per diluted share), compared to \$1.6 million (\$0.32 per diluted share) for the six months ended June 30, 2016.

Highlights of the quarter are as follows:

- Average loans receivable increased \$43.6 million during the quarter, or 28.28% annualized.
- Return on average assets improved to 0.50% for the three months ended June 30, 2017, compared to 0.42% in the first quarter of 2017 and 0.26% for the second quarter of 2016.
- The net interest margin was 3.64% for the second quarter as compared to 3.69% in the first quarter of 2017 and 3.73% compared to the second quarter in 2016.
- Old Point completed the purchase of the remaining interest in Old Point Mortgage, LLC during the quarter, generating a gain of \$550 thousand representing an adjustment to fair value on its previously held equity interest.
- Total assets were \$952.4 million, representing growth of \$29.6 million or 3.21% over sequential quarter, and growth of \$49.5 million or 5.48% since December 31, 2016.
- Non-Performing Assets (NPAs) were \$14.9 million at June 30, 2017, up from \$11.1 million at December 31, 2016 but down from \$15.1 million at March 31, 2017.
- Old Point completed the sale of the last two properties remaining in other real estate owned during the quarter at a small gain. As a result, other real estate owned decreased from \$1.1 million at December 31, 2016 to none at June 30, 2017.

Robert Shuford, Jr., President and CEO of Old Point National Bank said, "We had a solid second quarter and were able to complete some important strategic initiatives during the period. We are pleased to have completed our acquisition of Old Point Mortgage and the establishment of Old Point Insurance. Our indirect auto program has continued to gain momentum, contributing to annualized average growth of 28.28% annualized for the quarter which has helped accelerate revenue growth. The Trust Company continued to see asset growth and revenue

momentum. We made progress in the resolution of several of our legacy problem loan relationships during the quarter, and were able to liquidate our remaining properties in other real estate owned. Lastly, we completed a transition of leadership with the hiring of our new Chief Financial Officer during the quarter.”

NET INTEREST INCOME

For the second quarter of 2017, net interest income was \$7.3 million, an increase of \$251 thousand from the first quarter of 2017. The increases in net interest income were driven by higher earning asset balances. The second quarter tax-equivalent net interest margin decreased 5 basis points to 3.64% from 3.69% in the previous quarter, and decreased 9 basis points from 3.73% during the same period in prior year. The decrease in the tax-equivalent net interest margin sequentially was due to a seven basis point decrease in the core tax-equivalent yield on earning assets, slightly offset by a one basis point decrease in core tax-equivalent cost of funds.

For the six months ended June 30, 2017 net interest income was \$14.5 million, an increase of \$1.0 million compared to prior year period, primarily due to increased interest and fees on loans associated with loan growth and lower interest expense on FHLB advances.

NONINTEREST INCOME

Noninterest revenues were \$4.1 million for the second quarter of 2017, an increase of \$928 thousand or 29.34% from the first quarter of 2017, and \$805 thousand or 24.50% over \$3.3 million for the second quarter in 2016. This increase includes a gain of \$550 thousand associated with the purchase of the remaining 51% interest in Old Point Mortgage, LLC (OPM) from Tidewater Mortgage Services, Inc. Other variances in noninterest income included growth in revenues from fiduciary income (\$74 thousand) and mortgage banking fees (\$204 thousand), partially offset by a decrease in service charges on deposit accounts (\$105 thousand). Market driven increases in assets under management and revenue from investment activity account for the increase in fiduciary income. The increase for mortgage banking fees is a function of a change from the equity method of accounting for a minority interest to the consolidation of an operating subsidiary. Beginning with the consummation of Old Point’s acquisition of a 100% interest early in the quarter, gross revenues from OPM are recorded in this line item for the second quarter of 2017. In 2016, only the Company’s share of equity in the earnings of OPM was recorded for the quarter. Prospectively, OPM as a fully consolidated subsidiary will reflect gross revenues in noninterest income, while its expenses are included in the individual categories of noninterest expense. The decrease in service charges on deposit accounts is a result of lower overdraft fee income and lower service charges on both personal and business accounts.

NONINTEREST EXPENSE

Total noninterest expense was \$9.3 million for the second quarter of 2017, up \$785 thousand or 9.25% compared to \$8.5 million for the second quarter in 2016. Increases in salaries and benefits and costs (\$559 thousand) and costs associated with outside services (\$128 thousand) were the largest components of the increase, partially offset by a decrease in FDIC insurance (\$58 thousand). The increase in salaries and benefits is largely a component of accrued retirement benefits for the former Chief Financial Officer; the hiring of additional lending staff to support the strategic plan; and salary and commissions associated with the inclusion of OPM in

consolidated operations for the quarter. The increase in outside services is largely associated with processing costs associated with the dealer program initiated in late 2016.
